CI/CD

MongoDB

Gatsby

PROJECTS

BlueMark Real Estate

<https://bluemarkae.com/>

At BlueMark Real Estate where I developed their official website from scratch. The platform includes: Dynamic property listings (For Sale, Rental, and Off-plan) Agent profiles pulled from the database Functional forms, newsletter, WhatsApp integration Dropdowns, animations, and a fully responsive UI.

Technologies: React, Next.js, Stripe API, Tailwind CSS

Tax & Insurance Platform

<https://www.831b.com/symposium2025>

Developed an informational website explaining Section 831(b) of the US Tax Code for small insurance companies. and Built using Prismic, Tailwind CSS, GraphQL and Gatsby for optimized performance. Ensured responsive design and fast page loading.

Technologies: React, Redux, Firebase, Material UI

E-Commerce Platform Theme

<https://demo.storeleo.com/>

Built a free online store platform theme that allows users to launch their own e-commerce store instantly. and Developed with Next.js, Tailwind CSS, and Firebase to handle real-time data updates.

Online assessment platform

<https://assessment.ink/>

Developed a responsive platform for educators to create and manage online assessments, featuring customizable tests and real-time analytics to track performance. Integrated smooth UI/UX for easy navigation across devices.

Europe Style CV Platform

<https://euro-cv.netlify.app/>

Built a responsive CV builder platform allowing users to create, customize, and download professional resumes easily. Features real-time editing and a clean, user-friendly interface.

Personal Portfolio

<https://waqardev.online/>

Designed and developed a personal portfolio to showcase professional projects, skills, and experience. Built with modern tech including Next.js, Tailwind CSS, and deployed on Vercel with responsive and optimized design.
